Early Childhood Curriculum

Second Edition

The second edition of *Early Childhood Curriculum* provides a comprehensive and lively introduction to curriculum theories, approaches and issues in early childhood settings. Drawing on contemporary research and case studies, the book employs a cultural-historical framework to illustrate a variety of approaches to early childhood education.

New to this edition:

- up-to-date coverage of national curriculum documents, including the Early Years Learning Framework and Te Whāriki
- a glossary of key terms
- learning intentions at the beginning of each chapter
- updated companion website at www.cambridge.edu.au/academic/earlychildhood.

In each chapter hypothetical transcripts and real-world examples help bring theory to life. The book explores specific domain areas, including science and mathematics; literacy and language; information and communication technology; the arts; and health and wellbeing.

Early Childhood Curriculum equips pre-service teachers with the practical skills and tools to promote young children's learning. It is an essential resource for pre-service teachers and practitioners alike.

Claire McLachlan is Associate Professor, Early Years Education, Massey University College of Education.

Marilyn Flear is Professor, Early Childhood Education, Faculty of Education, Monash University.

Susan Edwards is Associate Professor, Early Childhood Education, Faculty of Education, Australian Catholic University.

1 INTRODUCTION	1
The early childhood curriculum	4
2 THEORY, RESEARCH AND THE EARLY CHILDHOOD CURRICULUM	8
What is a curriculum?	10
Curriculum models	11
Dominant ideologies	13
Changes in thinking about curriculum	20
Research as a driver for change in early childhood curriculum	26
Summary	29
3 DEVELOPMENT AND LEARNING – HOW VIEWS OF DEVELOPMENT SHAPE HOW CURRICULUM IS FRAMED	30
Development and curriculum	31
Curriculum and child development	35
DAP view of development	35
A cultural-historical view of development	37
Summary	43
4 CURRICULUM AS A CULTURAL BROKER	46
Reflecting on the broker: What should the curriculum mediate?	50
Mediating culture and curriculum: A cultural-historical perspective	51
Brokering curriculum for the future?	53
Thinking professionally about brokering curriculum for the future	55
Summary	56
5 INTERPRETING EARLY CHILDHOOD CURRICULUM	57
Working with early childhood curriculum frameworks	59
Relating early childhood curriculum to children, families and communities	63
The role of professional learning in curriculum interpretation	64
Summary	68
6 CULTURAL-HISTORICAL CURRICULUM IN ACTION	69
Understanding cultural-historical approaches to curriculum	70
Beyond multiculturalism: Using cultural practices and engagement to support learning	74

Contents

Play and a cultural-historical early childhood curriculum	76
Extending learning within cultural-historical curriculum	78
Summary	82
7 CURRICULUM AS A CONCEPTUAL TOOL: OBSERVATION, CONTENT AND PROGRAMMING	83
Linking observation to planning in the curriculum	84
What is observation and why is it important?	88
The role of environments: Observations in the early childhood setting	92
Zone of Proximal Development and Zone of Actual Development as a framework for assessment	94
The role of play: Observing the child in action	98
The role of transitions: The importance of observation, documentation and reflection	101
The role of relationships: Documenting observations in the early childhood setting	103
Shaping curriculum around key informants	110
Summary	111
8 ASSESSING CHILDREN AND EVALUATING CURRICULUM: SHIFTING LENSES	113
What do we mean by assessment?	114
The relationship between assessment and curriculum	118
Curriculum context at Wooranna Park	121
Assessment, learning and evaluation are interdependent concepts	123
Evaluation and assessment: Why evaluation matters	127
Ethical framework for evaluation	128
Planning for evaluation	131
Leading evaluations: Outcomes, processes, inputs and design	133
Curriculum, assessment and evaluation	138
Summary	139

About the authors

Claire McLachlan is Associate Professor of Early Years Education at Massey University in Palmerston North, New Zealand. Claire became involved with early childhood education through the Playcentre movement as a young mother of three children, and became fascinated with how young children learn. She completed a doctorate on the topic of emergent literacy in New Zealand kindergartens. She has lectured on early childhood education at the University of Wisconsin at Madison, WI, at AUT University in Auckland and at Massey University in Palmerston North, as well as having had various roles as a teacher and manager in early childhood centres. Claire has a longstanding interest in curriculum, particularly literacy, and a number of publications on teachers’ beliefs and practices as they relate to various aspects of early childhood curriculum. Since 2006 she has also been the co-editor of the journal *Early Education*, a publication aimed at early childhood practitioners.

Marilyn Flear is Professor of Early Childhood Education at Monash University in Victoria. She has been a teacher in long day care, preschool and school. She has also been an adviser and curriculum officer for the Ministry of Education in Western Australia. In 2002 she was appointed as a Research Fellow for the Australian Government (then named the Department of Education, Technology and Youth Affairs). She has published nearly 300 works, 30 of which are books. She is currently the President for the International Society for Cultural Activity Research.

Susan Edwards is Associate Professor of Curriculum and Pedagogy in the Faculty of Education at the Australian Catholic University, with a specialisation in early childhood education. She has practised as an early childhood educator in long day care, occasional care and preschool settings. Susan completed a doctorate at Monash University with a focus on how theory informs early childhood curriculum. Susan has been actively involved in researching early childhood curriculum, particularly issues associated with teacher thinking, digital technologies, theories of development and the role of play in learning. She has published several key texts in these areas of research and practice.

Acknowledgements

It is impossible to write a book without the support and assistance of many other people. We would like to gratefully acknowledge the support, assistance and contribution of the following people:

1. Claire wishes to thank her husband, Simon Barton, for his amazing support, listening to many reports on how the writing was going and cooking beautiful dinners on a regular basis! Claire also wishes to thank her children – Daniel, Jeremy and Jessica Smith – who have provided such inspiration and food for thought over the years.
2. Marilyn wishes to acknowledge particular colleagues who have contributed to Chapters 3, 8 and 9 (see below) and to thank Debbie Lee, the commissioning editor, for her continued support for the conceptualisation, writing and publishing of this book:
 - The Department of Education, Employment and Workplace Relations provided funding for the development of a set of early learning resources that were discussed in Chapter 9. Consortium leaders were Professor Bridie Raban and myself. The overall results and theorisation are reported in: M. Flear and B. Raban (2007) *Early Childhood Literacy and Numeracy: Building Good Practice*. Early Childhood Australia: Canberra; M. Flear and B. Raban (2006) A cultural-historical analysis of concept formation in early education settings: Conceptual consciousness for the child or only the adult? *European Early Childhood Education Research Journal* 14(2), pp. 69–80.
 - The prestigious Margaret Trembath Research Scholarship fund provided financial assistance for the research reported in Chapter 3. Gloria Quinones provided invaluable support to this project by accompanying me on all field trips to the family home and in videotaping most of the school and centre observations. Carol Flear has supported this project by assisting with downloading tapes and undertaking some transcriptions of the video clips. The methodological approach to the coding was conceptualised by Professor Mariane Hedegaard, and is reported in: M. Hedegaard and M. Flear (2009) *Study Children: A Cultural-historical Approach to Research*. UK: Open University Press. The findings of the study are reported in: M. Flear and M. Hedegaard (2010) Children’s development as participation in everyday practices across different institutions: A child’s changing relations to reality. *Mind, Culture and Activity* 17(2), pp. 149–68.

Acknowledgements

- Chapter 8 was developed as a result of Amanda and Thomas taking me around their school and sharing their learning with me, and Esme Capp and Linda Sinadinós kindly agreed to being interviewed about the innovations within the school.
3. Susan wishes to acknowledge kind permission from Pademelon Press to use excerpts from *Early Childhood Education and Care: A Sociocultural Approach* in this book. She also wishes to acknowledge the work of educators from the City of Casey and students from Monash University that is used in this book.
 4. The Cambridge University Press team, especially Debbie Lee, who followed up and persisted with the vision for this book and to Isabella Mead for her ongoing helpful support for the revision process.
 5. Our employing institutions while we have been writing this text: Massey University College of Education, the Faculty of Education, Monash University and the Australian Catholic University.
 6. Our colleagues at Massey University, Monash University and the Australian Catholic University, who have provided many helpful conversations, and the student teachers and children in early childhood and primary settings who have been its inspiration.
